**Rental Rates for Contractor Owned Trucks Used to Haul Material**

The rental rates for Contractor owned trucks used to haul material, as published in Construction Circular Letter 1991-2, have been reviewed for the possibility of an adjustment.

After conducting a survey of current trucking rates, it was determined that an adjustment is not warranted at this time. Therefore, Construction Circular Letter 1991-2 stands as published until further notice. When economic conditions change, the trucking rates will once again be reviewed.
